

Directions for Viewing PDF Slide Shows

Any multi-page PDF can be viewed as a slide show. To do this, open your PDF, then set it to Full Screen view.

About Full Screen view:

Full Screen mode must be used when viewing PDF slide show presentations. In Full Screen view, Adobe PDF pages fill the entire screen; the menu bar, command bar, toolbar, status bar, and window controls are hidden.

Setting to Full Screen view:

Click the full Screen View icon  on the status bar at the bottom left of the Adobe Reader window.

Navigating in Full Screen view:

Press Enter or Return or the Down Arrow or Left Arrow key to page forward and backward through the PDF.

Exiting Full Screen view:

Press Esc, (Escape Key Exits must be selected in the Full Screen preferences), or press Ctrl+L (Windows) or Command+L (Mac OS). If the full screen navigation bar appears, you can also click the Exit Full Screen button.

Help:

For further information, use the help button located on your toolbar.
